KIDS, VAAYU & CORONA :

Who wins the fight?

A Comic for COVID-19 Awareness

Vaayu: A superhero, who works for better public health & environment. Can he defeat Corona?

Corona: A virus, which is spreading fast globally & causing COVID-19 disease.

**Dr. Ravindra Khaiwal
Dr. Suman Mor**

Kids, Vaayu & Corona: Who wins the fights? (A comic series for COVID-19 awareness)

There is growing concern and perceived threat about the Coronavirus among common citizens. The population of all ages are making use of available media such as newspapers, social media, and television to make themselves aware. From adults to children, most of the discussion these days are centering around the Coronavirus. But for children, especially those below the age of 12 years, Coronavirus has become a cause of concern as they are not able to comprehend the talks and getting worried. The parents should talk to them and resolve their queries so that they do not panic.

Sometimes parents might be busy, and they might not be able to resolve their queries. Considering this PGIMER- Chandigarh, India, and Panjab University-Chandigarh, India created a comic to make children aware about the threat of Coronavirus and how to remain safe through simple precautionary steps. This comic is created to learn, along with fun, and motivate children to be a hero of prevention by defeating Corona.

Vaayu is a global citizen who lives in the foothills of Himalayas, India. He is a superhero, who work for the better public health and environment. He has been called to fight against global threat of Coronavirus and to protect children from sudden panic and fear.

Technically Vetted by:

Oh, kids seems to be panic.
I must visit them.

What happened
kids?

Yes, Vaayu, we are strong and won't panic about Coronavirus but please tell us precautions we should take to defeat this virus?

Can we really defeat it?

Yes kids, you can control the spread of Coronavirus and you can defeat it by following simple precautions.

Really, can we control the spread of Coronavirus and prevent yourself and your family?

Yes, there are few simple ways through which you can keep yourself and your family's health safe.

Wow! This is interesting that we can defeat Corona Virus.

Please tell me more about infection control!

Ok kids, i will tell you simple steps to follow not only for Coronavirus but also other viruses and bad germs.

First step is that we need to be clean & maintain hygiene. Use hand sanitizer & wash your hands properly.

How we wash our hands properly to kill germs?

The germs and bacteria hide at a place, where it is hard to kill them. So, we need to wash our hands properly. Now follow with me these seven steps.

Washing hands instructions

Let's Greet Like This

As-Salaam-Alaikum

Hello Everyone

Namastey

Sat-Sri-Akal Ji

Also maintaining social distance

Avoid going in crowded places or functions

Oh!!
That's why our school's are closed.

Kids! if not urgent, please avoid travel to the place where Coronavirus is reported.

Thanks Vaayu!
We will also ask our parents to avoid travel If possible.

A man with black hair, wearing a white long-sleeved shirt and a blue cape, stands on the right side of the image. He is looking towards three children on the left. The children are a boy in a grey shirt and white pants, a girl in a blue shirt and dark skirt holding a pink piggy bank, and a boy in a red and white striped shirt and blue shorts. The background shows a green park with trees and a city skyline in the distance. A large speech bubble is positioned above the man, and a thought bubble is above the children.

If you have cough, fever
or difficulty in breathing, contact a doctor
immediately and follow the advice
given by your doctor.

A thought bubble with a white background and a blue border. Inside, a cartoon doctor in a white coat and blue tie holds a yellow medical bag with a red cross. The text "Hello kids!" is written to the right of the doctor.

Hello kids!

A light blue speech bubble with a white border. It contains the text "Great! these are simple steps to defeat Coronavirus or other germs.".

Great! these are
simple steps to defeat
Coronavirus or
other germs.

Thank you, Vaayu ! These are simple steps and in this way we can defeat the Coronavirus.

Yes kids, together we will defeat Coronavirus and other infections.

Let's follow the simple steps and break the chain of infection and be the hero by preventing the diseases.

Yayyyyyyy !
That's a good break the chain of infection.

That's good, please also teach your friends and ask them to be active about the spreading germs and viruses.

Ok kids, now tell me,
How can you defeat corona virus?

By washing hands properly.

1 Meter

By maintaining social distance.

By greeting traditionally.

Maintain & Proper hygiene

If sick, follow doctor advice

Coronavirus FOR CHILDREN OF AGE GROUP 9 TO 12 YEARS

Corona Viruses are a large family of viruses that causes illness ranging from common cold to more severe diseases , such as Middle East Respiratory Syndrome (MERS- CoV) and Severe Acute Respiratory Syndrome (SARS-CoV).

Common signs of infection include respiratory symptoms cold, fever, cough, and breathing difficulties. In more severe cases , infection can cause pneumonia , severe acute respiratory syndrome , kidney failure and even death.
